MEET YOUR HERO

Meet NBA and Euroleague players in wine cellar

This is unique opportunity for you to join the Journey to the center of the Earth, to walk through more than a 400m of ancient interconnected passages, and to taste excellent wines from Serbia 25m under the ground.

REGISTER

for a wine tour in Roman Cellar Panajotovic at Senjak Hill,
and **meet NBA and Euroleague players**.

Wine Cellar Panajotovic is the only cellar in the heart of Belgrade that is offering wine tasting and food pairings. Cellar is located in the elite part of the city called Senjak, 15 minutes from city center. The Cellar is situated in ancient Roman underground passages, 20 meters below the street level. Tourists are introduced with the interesting history of these Roman corridors which date back in the 1st century AD.

The owner of the cellar Mr. Vladimir Panajotovic is the fourth generation of winemakers, graduate technologist and enologist.

At the tasting we give detailed information about our wines but also about pairing wine with food. Guests can hear interesting information about the beginnings of wine culture – what and how people drank in ancient Egypt, Greece, Rome, Balkans etc and various stories and legends about wine. Our guests are always delighted with new information, which we can proudly say, they can't hear elsewhere. Also we're trying to support the participation of our guests in the exchange of knowledge and information.
